Dear Alberto,

Here is the Zarathustra.
It is taken from the translation published by Messrs George Allen and Unwin.

Would you like to work on the original German? You could use Nietzsche's own words.

I think what I am sending will be sufficient for you to decide whether you like the idea, and of course, if you let me know definitely that you want it, I could do some more work and perhaps improve the thing.

Please give my love to Vera, I hope we'll both be seeing you again very soon, and that good prospects are opening up for the BOY DAVID.

Cheerion

Pat.
