Hi all

Michael please forward this to Roger as i don't have his address

My apologies for not being in contact. It's like a madhouse here with all the negotiations re business etc. and of course the usual Christmas lunacy. The farm is now in the bag (as it were) and we'll be moving mid January and so Dylan and I are packing and just so excited as you can imagine. Apart from growing our core ingredient, we're also going to put in animals; cattle,sheep (lawnmowers), two ostriches, chickens and of course pigs. I've got the names ready....PW,Pik,Magnus etc. This will also make slaughtering easier.

Denmark is constantly in my thoughts.... it was all just the most incredible experience and I think one that I'll certainly treasure forever. (just so many amazing people) Every time I turn on the TV and see yet another horror in Ramallah (wherever) I think of Rania Elias.... Did you guys see that programme on Special Assignment about what those nice Israelis are doing. It's incredible how one's preconceptions change when you get as accurate insight from a different perspective. Anyway I have my dishcloth ready for the next demo at the US consulate!

Dave I'll be going to Fancort this weekend..... and hope to meet Colin. Thanks for the info.

Roger please drop us a line. Are you still going to Italy next year?

I have to visit Rhodes University early next year, product testing so Michael I'll certainly look you up. Hows the documentary doing? When do Roger & I get to go to Hollywood?

Guys, I really look forward to your visits next year. My house is always open and likewise to anyone from Freemuse. We should really all try and get together.

Lastly I wish you all well over the Christmas season and quite simply everything of the best for 2003. I think it's going to be a stunning year!

God Bless
Paul, Dylan & Candice (my daughter)
