Subject: Hello from the Frozen North!
Priority: normal

Hoozeet my chinas!

Sorry to hear about your problems with CS&N, although I think that a "crossover" act might go down better in SA, and N is the only one worth listening to!...his parents live quite close to Bobcaygeon and local musician friends of mine keep promising that he will turn up at their parties...!(Allanah Miles has a cottage on the same lake as ours!) ya well no fine...

All is well here, still homesick like anything, but can't do anything about it except remember the good times, of which you are all a major part.

Are you in touch with Alan Pierce? I have lost contact, have written some, but no reply. If you know where he is, please let me know. I am about to be connected to the Web at home, so far I have been using the Colleges system, and it is nice, but a drag to have to travel 30 miles to use Netscape! They have started a FreeNet locally, so things will improve a lot. My alternate e-mail address will be:-

tonyc@knet.flemingc.on.ca

Hope all is otherwise well with you and the clan, if you have time, send me some family pix! Best love to all, hou moet ou boet, Tony
