Yo David!!

Thanx for the fax, good to see that the project still get some publicity.

A bit of gossip...

Ann Williams told me the other day that Rael and Cris Engelbrecht met in a car park and apparently a argument developed and Cris took a swipe at Rael, I don't know if he hit him, and apperantly Cris skipped the country with family and all, maybe to New Zealand. Bad ain't it.

Aside with the bad news....

I don't know if you're involved in Splashy Fen this year...
I am available to work there again as in-house FOH engineer, especially in the main tent. Simon told me today that he wants to do a dobbie on the event for SAFM.

Is the Hidden Years Band going to perform there? I really hope so!!
It should be the main act in the main tent!!

All the best to you and your family.

Evert
