Dear David

Received your email and post. Thanks for the interesting motivation speak and lecture!

The ramblers folk en blues club are a network of South African musicians, includes: aging hippies, metallers, hard rockers folk in blues and jazz people, (even a few Hells Angels,) all born from the freedom that Woodstock introduced. Not unlike 1969 when it all started, 1999 will see a massive resurgence of the spirit that came to be. The negative circumstances that we collectively witnessed in August 1997 are the same as they were back in 1969, Same minds, different hairstyles. The Ramblers have connected with Barleycom, Four Winds, Durban Folk Club and are searching the web for more respondents. Ramblers hope to have ten thousand members in Gauteng by the year 1999, As a network we hope to assemble at a central meeting point, celebrate our collective spirit and strategise a Ramblers constitution for the year 2000. Ramblers have been hoping for a chance to find an excellent Raison de Tate!, a group mission that we could all easily subscribe to and unite against. I do believe we have found one. We hope that the Americans will acknowledge this effort and form a mass stateside rally that we could join forces with. I described in great detail, to fellow Ramblers, with a strong photograph, of how Ira Cohen arrived at Yasgurs Barn on his Fathead Harley Davidson after straightening some corporation and trooper heads. The Hells Angels we have in our midst vowed to ride behind Ira anytime of the millenium. Ramblers could buy that attitude for a dollar! I hereby petition any kind of response to the cause outlined here. We are a voluntary network open to strengthen ties with all of our kind world wide." Theres something happening here, what it is aint exactly clear, theres a man with a gun over there, telling me I `ve got to be ware, Its time to stop, hey whats that sound everybody look whats goin down.!"

Keep on rocking

Regards

Ramesis.
