Hello Peter,

I believe you phoned the other day but I did not receive a very clear message. You can use the above fax number for cheaper and more reliable communication if you like.

I am busy planning my work for next year and I have kept the first three weeks of February free for the Eastern Cape project you mentioned to me. Could you please send me details of the project on a fax? I will be busy during the last week of February with the launch of the Little Library collection. The rest of the first term I will be touring schools in the Cape. Those will start making bookings with me in the last two weeks of this term so I will need to receive confirmation from your side before the end of the year to keep that slot free. I am leaving on a tour of Eastern Cape schools this coming Monday and will be away until the 7th of December. You can leave messages on the above number.

Stay well.

Pedro
