CAPITAL RADIO THE STATION WITH AN AFRITUDE

Capital Radio comes of age, we're excited to tell you about the New Independent Radio Station for the New South Africa broadcasting from Transkei.

From July 1st 1993, Afritude is the word that signifies our new sound - the best music that South Africa, and indeed Africa as a whole, have on offer, will get pride of place - not some of the time - ALL Of The Time - and that's not all!

Relevant talk radio takes to the airwaves, to complement Capital's news and sports team, Capital will deal direct with the issues of the day. This is Afritude.
