GERMAN EXPRESSIONIST PRINTS EXHIBITION

Madam Paper is sponsoring a very fine exhibition at the Durban Art Gallery of the permanent collection of the Durban Art Museum. It comprises choice works from the collection, which are works by almost every major German Expressionist artist.

The General Manager, Mrs. Mendi, Mr. Ian Hillier, is pleased to announce that the exhibition will be on display from the 1st to the 15th of June.

EXPRESSIONISM

The term Expressionism was first used in 1901 by the German artist Wassily Kandinsky in his book "Concerning the Spiritual in Art". It was a movement which had its roots in the early 20th century and was a reaction against the naturalism of the 19th century.

The Durban Arts Association is pleased to announce that it will be celebrating the exhibition in style.

PHOTOGRAPHIC COMPETITION
