

LATIN HEAT

THE REVUE

Latin Heat is a mini extravaganza incorporating music and dance from Brazil, Mexico, Puerto Rico, Spain, Italy and Cuba.

The clever mix of songs means that there is something for all types of audiences, no matter their age. Featured are the vibrant and pulsating rhythms of the Lambada, the Salsa and the Rio Carnival Sambas which create an interesting contrast to the gentle and romantic Flamenco and Guarijas dances and the old time Latin standards.

The predecessor of Latin Heat was a Revue entitled "Sounds of Brazil". Press cuttings for both these Revues are enclosed.

The Revue is also very flexible in that it can be tailored to suit small or large venues. For further information please contact:-
