## AFRICA MUSLIM PARTY

*Small But Very Effective!*

Even though we came on to the political scene just six weeks ago, our opponents are beginning to notice us!

When our experts on Women's Rights went on the Agenda show on TV to explain about Islam's perspective on Women's Rights, our switchboard was jammed with calls from people throughout South Africa, asking us why we did not present our view on social matters earlier!

Now as a result of our being on the political scene the major parties have realised that Muslims have needs too! The ANC and NP are now commissioning Muslim individuals and bodies to present a Muslim Personal Law document to them for consideration.

But Muslim Personal Law is only one aspect of Islam. We the Africa Muslim Party are offering to all the people of South Africa the entire Islam. Muslim Personal Law will not have an effect when other laws supercede it constitutionally, and Islam is not for the Muslims only. It is system, an ALTERNATIVE SYSTEM for the whole world to accept.

We do not hide the message of Islam in the closet for ourselves. We are offering it as a solution to all the problems of South Africa. We have an economic system, an educational system, and a political system, Women's Rights, Children's Rights, Social Reformation and solution for everything else to create a balanced and just society, we are the middle path!

We invite ANC - NP and all other parties to change their manifestos and implement the laws of Allah (God) in totality and absolute freedom from all kinds of oppression and injustice. No other man-made system has a basis for total unity and peace for mankind.

Thank you ANC - NP for noticing a part of Islam and now accept the rest of it too!
