## COMMUNISM AND CAPITALISM HAVE FAILED AND ARE DYING

Millions of people worldwide are jobless or have become refugees (40-million jobless in eastern Europe and Russia), millions of people killed or homeless in the wars between communism and capitalism in Africa and Latin America for the control of the earth's resources and for greed. Millions of people in capitalist America and Europe are homeless and sleep on the streets. And yet there are people who still want to hang on to these failed systems!

Neither Karl Marx (father of communism) nor Adam Smith (father of capitalism) could offer a system that is as humane and as successful as Islam.

In Islam there are no back breaking taxes, no over-bearing bureaucracy, who live like leeches from other people's blood and sweat, no monopolies and no

secret budgets. People are free to trade in lawful goods and organise their lives with minimum State interference. With only 2,5% wealth tax (Zakaat) on the wealthy, the Islamic system breeds honesty and increases prosperity. It abolishes poverty and imbalances in society. It motivates people and develops their physical and spiritual skills to the fullest. It makes for an honest and kind society. Islam offers not only peace and prosperity but also a stable, harmonious crime-free society. Western researchers themselves admit that in countries where Islam is practised crime and poverty are almost non-existent.

Islam is the only solution that has stood the test of times. Isn't it time you tried an ALTERNATIVE system and gave yourself and your children a better future?

## A MORAL SOCIETY IS A JUST SOCIETY

With the Major political parties advocating all kinds of “freedom”, in virtually every walk of life, we've started asking ourselves certain very important questions. We are sure you've also been doing the same and also done some serious soul searching.

How is this “new freedom”, which is permissiveness and perversity going to affect the lives of every God fearing person?

Freedom of religion is advocated very broadly and freely by the major political parties to win votes, but morally is not defined. It is very clear that they do this to satisfy the people's need for morality, but the aspirations of the religious groups and their beliefs are disrespected.

Many of their policies are in violation of moral values of all people and also against the very nature of men. As such it is important for the AFRICAN MUSLIM PARTY to take a firm stand on these issues and protect the rights that God Almighty, has given us. We have to be there as a Moral Conscience of the people.
