

# The NP's economic policy has left 5 million\* people without jobs.

\*Central Statistical Services

# WE CANNOT AFFORD MORE OF THIS

*The National Party's economic policies have caused poverty and suffering for millions of South Africans.*

*Right now, 5 million people are unemployed. And according to the Manpower Commission, over 90 matriculants out of every 100 will be unable to find a job on leaving school this year.*

*We cannot afford any more mismanagement. We need a government that cares.*

*The ANC will get South Africa working with a plan that makes job creation our first priority. Our National Public Works Programme alone will create 2,5 million jobs in the next 10 years.*

*You can't trust the National Party to solve the problem, because they are the problem. They've had their chance. It's time for change.*

**A better life for all. Working together for jobs, peace and freedom.**
