WHY TEN YEARS FREE QUALITY EDUCATION MAKES SENSE.

South Africa will develop to its full potential when all South Africans are given the chance to develop their talents and abilities.

For years, education was used as a political weapon to oppress, not as a tool for learning. No wonder, today, more than half of all South Africans can't read or write.

That's why ten years of free quality education for all our children is an important part of our education plan.

It's not just a question of what's right and fair for our children.

It's what's right for our country.
