Kantoor van die Leier

Dear fellow South African,

I wish you a peaceful and prosperous New Year.

The year 1994 will be a make or break year for South Africa.

**Over the past few years our country has seen incredible change.**

We swept away the apartheid laws. We unbanned the ANC and others.  
We steered our country in a new direction.

**The results were dramatic.**

Our new constitution, protecting the rights of all South Africans and giving everyone the right to vote, has already been accepted.

Our economy is improving.

We are selling our products across the world.

Investments are starting to flow into our country, creating new jobs and prosperity.

We are competing on the sports fields of the world.

**All this happened because the National Party made it happen.**

**South Africa has changed because the National Party has changed.**

The changed National Party is a totally new Party.

It has broken with the past.

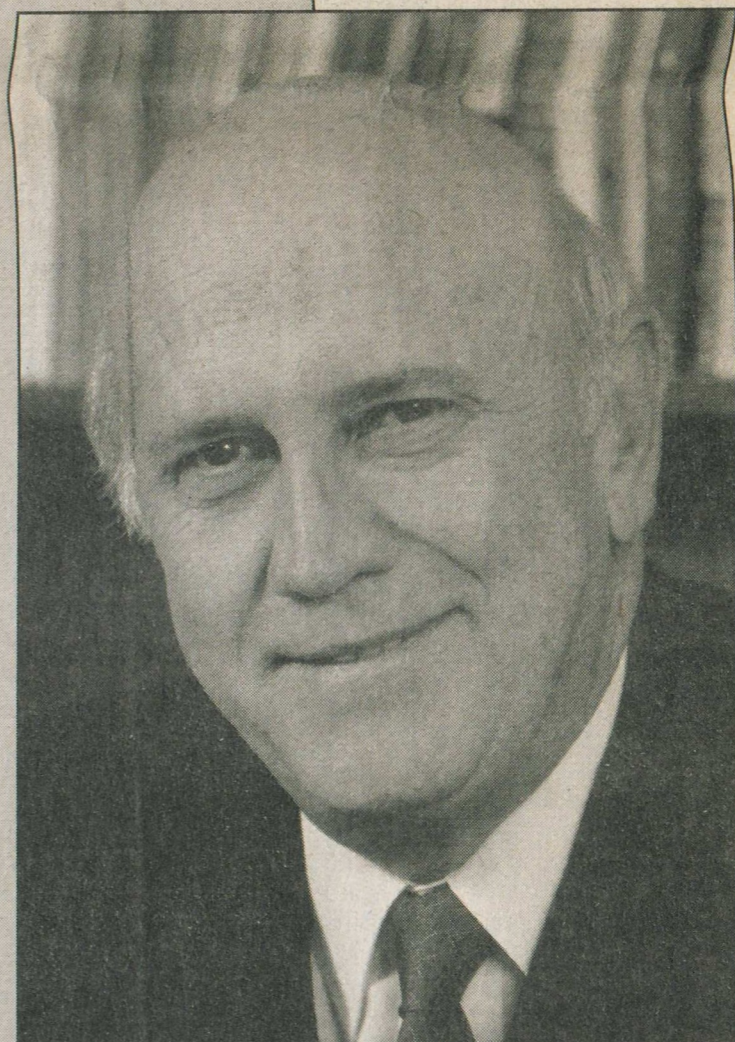

It had the courage to admit and rectify its mistakes.

It offers a political home to all peace loving South Africans, irrespective of race, colour or creed.

It represents your best insurance policy against power-hungry radical parties and dangerous left or right wing alliances.

**For your sake — and the sake of our children — join me in making this new National Party a beacon of hope for the future.**
