# The Workers List Party

on April 27-28th

**The WLP is opposed to the compromises of the Kempton-Park constitution, especially to:**

- The Government of National Unity, which guarantees De Klerk and his officials a share of political power, regardless of the outcome of the vote .
- Tribal/ethnic provinces such as the Volkstaat, a "Zulu" kingdom, etc, which will divide our people and strengthen the corrupt ruling cliques.
- The repayment of the Apartheid debt and the continued massive subsidies to white elephants such as Mossgas, Sasol, etc. Put the demands of the urban and the rural poor at the top of the national agenda.

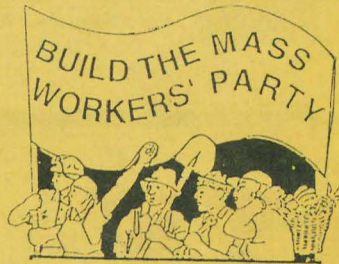

**We stand for the democratic rights of working people, of the poor in the cities, and homelands. These include:**

- The right to work. No man or woman who wants to work should ever be without a meaningful job.
- A 35-hour week; a living wage; an end to retrenchments
- State provision of houses for the homelands, hospitals, clinics, creches, schools, sports and cultural facilities.
- An end to wasting our taxes on the army, police, corrupt government and homelands
