ALL CORRESPONDENCE TO BE
ADDRESSED TO THE REGISTRARUNIVERSITY OFFICE,
STELLENBOSCH.

21st January, 1959.

REF. NO

Dear Mrs. Coates,

I am, at last, sending you the music, which I arranged to be copied. Those parts of which you wanted eight copies, are done according to the "blue-print" duplicating system, in order to save time and cut down expenses. I hope you will find them satisfactory enough. I am sending ten copies of each, and more copies could be made at short notice, since I am keeping the negatives. Only after I had them made, I was warned, that, unless they are stored in a dark place, they start fading after two years. Since the concert is planned for this year, I hope there won't be any trouble.

There is no account for the copying. The Registrar, Dr. Pretorius, asked me to tell you that he considers it a privilege for the University to be able to assist you in this small way.

I am writing these lines in great hurry. We are actually on a fortnight's holiday at Gordons Bay, and only rushed over to bring our eldest daughter to school. The family is extremely well, and we are enjoying the break at the sea-side.

Many thanks, once again, for the wonderful Christmas present and the beautiful calendar with your own painting. We had a very happy Christmas. The children were too sweet. They simply adore the dolls which they received from "Tante Coates", and fully realize that they are something special, and not for everyday use.

Please give my regards to Miss. Daneel, I sincerely hope that you are both well. One day you must come and see us.

Yours sincerely,

Richard
