

1. I do not know when the pool was built
 it was formed by blasting operation. I
 remember the rollers came along the concrete
 Causeway over the rocks - & walking alongside them
 & wish they were not there
2. I believe my father & Uncle David contributed
 some money towards improving the spot to make
 it ^{into} a place for bathing.
3. Originally I do not remember a subway
^{under the railway line} we walked over the rails.
 I bathed down there a few times in 1905
 during school holidays coming from England
 and later I bathed with ^{my} friends ~~(girls)~~,
 somewhere about 1913 & 1914 - ^{there was then a subway - we} always
 taking great care never to be there should
 there be any men wanting the pool. It was
 from the earliest time meant only for
 men bathers. I have an idea that ~~that~~
 Uncle David built the first bit of wall
 to shelter the bathers taking sunbaths!
 The Statement ~~as by Reg de Smet says~~ that
 there was a tunnel is erroneous.

Bordeaux

by Fakir bought the house (it was built ~~by~~ a bungalow) I believe it was ^{from} a by Marain I was not born there but all by brother were by Fakir rebuilt Bordeaux & had unknown from Italy to do the mosaic work in the place then was a lot of marble ~~which~~ I do not know where it came from. used for the steps all round & pillars. Only peak work was used & the panelling ~~inside the~~ ^{all} beautiful -

by uncle David lived with us for eleven years ~~until his marriage~~

by Fakir & uncle David bathed every morning. by van Rynveldt who lived in the next ~~door~~ ^{there} also bathed same time ~~at the pool~~ ^{in spite of the cold water!} had had to like the cold water! -
