Cabaret at the Langham.

In Aid of Jewish National Fund.

The diner-dansant, organised by the Observatory Branch of the Women's Zionist League, held on Wednesday evening at the Langham Hotel, proved a most delightful function and was voted by all a great success. This success was due mainly to the untiring efforts of the joint honorary conveners, Mrs. N. E. Rosenberg and Mrs. L. Bernberg.

The Jazz Maniacs Personal Orchestra supplied the music and the hall was tastefully decorated with flowers. During the evening an exhibition dance was given by Miss Glanok and Mr. Leonardo. The function attracted three hundred dancers, who spent a most enjoyable evening.

The Observatory branch of the Women's Zionist League is to be heartily congratulated upon organising what was undoubtedly one of the most fashionable functions this season.

DR. EMANUEL LOURIE.

Interesting visitors who arrived in Johannesburg this week are Dr. Emanuel Lourie, M.B., and Mrs Lourie. Dr. Lourie is the second son of Mr and Mrs H. Lourie, the well-known communal and Zionist workers of Johannesburg. He and his wife (who is a Canadian young lady) will be in South Africa for a few weeks, prior to their leaving for the United States of America. Dr. Lourie is proceeding to the Tulane University, New Orleans, where he will undertake special research work in Malaria. He was, until recently, on the staff of the Liverpool School of Tropical Medicine as lecturer on Protozoology.

Some time ago Dr. Lourie collaborated with Prof. Adler in the Micro-Biological Faculty of the Hebrew University. He subsequently travelled extensively in Persia and Mesopotamia, and the results of his researches have recently been published.

It is eleven years since Dr. Lourie has been in Johannesburg and a cordial reception is being extended to him and his wife by his relatives and a large circle of friends.
