

ELECTION PLATFORMS:

MIZRACHI

THE Mizrachi movement is one of the most vital and active forces in the Zionist Movement. In the struggles that Political Zionism waged, the Mizrachi was always in the vanguard. With the Yishuv now fighting for its existence, the Mizrachi stands in the forefront in the most dangerous places, in defence of the Jewish Land and Jewish People.

The ideology of the Mizrachi embodies the eternal and sacred hopes of the Jewish People: The Land of Israel, for the People of Israel, according to the Torah of Israel; An undivided Eretz Israel, within its historic boundaries as the eternal inheritance of Jewry!

Eretz Israel a Holy Land

Permeated with the spirit of our prophets and sages, an Eretz Israel in which Jewish life will return to its original brightness and clarity, uncontaminated by alien ideals that have no place in our Land!

A Jewish Nation that shall be free, and accorded full liberty without being exposed any more to persecution and massacre!

We appeal to every Jew, to whom Judaism is dear—To every Jewish father and mother who want their children to be reared in a spirit of love for matters Jewish, to every Jew who longs to see the People of Israel in its revival and reconstruction—To all of you we say: It lies in your hands! Don't be misled by false ideologies!

European Jewry remains as insecure now as it was before the war.

We must secure their passage from the Diaspora and their entry into Eretz Israel with our own passports, and we must demonstrate to the world that ours is not a people that depends on or can be deterred by declarations, but marches resolutely in advance of the support and sympathy which we are entitled to expect from the civilised world.

The Jewish people dare not rest until all those who strive to return to Eretz Israel are repatriated.

ERETZ ISRAEL CITIZENSHIP

All Jews seeking repatriation will be free to opt for Eretz Israel citizenship even before their repatriation, thus enabling the Provisional Government to include them immediately in the General Register of its citizens, and to demonstrate that it is only the forcible prevention of repatriation that has hitherto delayed the attainment of a Jewish majority in Eretz Israel.

In accord with the principle of free entry into Eretz Israel for all Jews from all parts of the world, the constitution of the Jewish State shall lay it down for all time that the citizenship of any Jew or his location shall be no bar to his right of entry into Eretz Israel.

DIPLOMATIC REPRESENTATION

The Provisional Government must set up a representation at the United Nations, and must, like National Movements of the past, embark on a struggle to secure international recognition.

THE ARABS

We regard the Arabs in Eretz Israel as fellow citizens entitled to the full rights enjoyed by all other citizens of the Jewish State. The constitution for the country must give expression in legal form to this principle.

There exists in Eretz Israel no problem of Jewish-Arab relations that cannot be peacefully resolved.

The special conditions in this field have been produced by the Mandatory Power which has stood between them and prevented the development of harmonious relations. The only guarantee of harmonious Jewish-Arab relations will be the establishment of a progressive and democratic State of Eretz Israel whose Government will forge bonds of friendship within Eretz Israel and with the neighbouring Arab States.

FRONTIERS

The area of Eretz Israel embraces the territory east and west of the Jordan. Opposing every form of partition, we repudiate the illegal exclusion of the Transjordanian portion of Eretz Israel. It will be the task of the Provisional Government to reunite Eastern and Western Eretz Israel.

We shall recognise no other frontiers.

Call to Women Voters

Polling stations for the elections on June 9 to the Wizo Conference have been established in every town at the same address as the stations for the elections to the Zionist Congress.

Every woman who is a member of a women's Zionist society or group is entitled and urged to vote.

SOCIAL AND ECONOMIC PROBLEMS

We are bound to no particular economic or social doctrine, other than the principle of democratic government. Our paramount aim is the speediest possible attainment of the Jewish State. Our sole consideration in the choice of methods must be free to opt for Eretz Israel citizenship. All social and economic groups in Eretz Israel, who have suffered equally in the European extermination and who are faced equally by the political and economic insecurity in Eretz Israel, must adapt their existing structures to the speediest possible absorption of the mass immigration.

All energies must be united in the vital task of achieving Statehood. When the Jewish State is attained the citizens of Eretz Israel, following the practice of normal and democratic states, will freely elect their Government and establish a social and political democracy.

DEMOCRATISATION OF CONGRESS

We shall at the forthcoming Congress press for the abolition of the paid franchise, with the object of transforming the Zionist Congress into a true democratic Jewish assembly.

At this decisive hour, when vast numbers of our people await the greater exodus, we call upon all Jews, those who have been uprooted and those who are still possessed of means and freedom of action, to cast away the old, worn-out and discredited methods, and to join us in a great effort of liberation.

My Visit to Poland

"Because," he replied, "there are so many Jews there who want to be Jews. I can feel with them, I am at one with them. I've had enough of self-denial. I crave self-assertion and a good deal of it. The United States, of course, has a good deal to offer in that direction, I understand. That's why I should want to go there. I want to be what I am without shame and cringing. It's about time for me and my daughter. So what about an American visa or a certificate to Palestine?"

The Lady by this time was out of bed. Wrapped in her dressing gown she stood near us, her finger accusingly pointed at the Colonel and me:

"You come to visit a Lady," she complained, "and instead of making compliments you discuss politics. Is that a nice thing to do?"

The Colonel, ever gallant, rose, his medals tinkling as he moved.

"You are right, Lady," he said, "It's not nice, but it's necessary, very necessary."

hood is to be achieved. In that Jewish State we guarantee political and economic equality for Jew and Arab alike."

This immediate plan of action, based on a realistic understanding of the world situation, will carry the Jewish people through the trials which will face us during this coming period of upheaval. We demand of the Jewish people a personal identification with the Zionist ideal which must be orientated towards constructive Zionism—the Histadruth.

The Jewish people need to-day, as never before, the vital constructive force of the organised Jewish worker to achieve the Zionist ideal.
