The Cape Argus

Dave!!!

Dynamic, superb album. Full of the unexpected, delightful.  
Powerhouse with your musicians.  
Masterful production and arranging.

Now  
for the purposes of my column (apart from the review which it will get) please let me  
have soonest the genesis of Master Jack.  
Why you wrote it  
When you wrote it  
How many cover versions are there (by whom?)

Geraldine says this version is what you originally intended.  
She says it is a fantastic album

Lemme know soon

Thanks for the acknowledgement too!

Cheers
