re: Discussion with PEGGY about equipment for STEVE

NEWMAN, TONY COX, SYD KITCHEN & MIKE SMITH BAND.

Dates: Tuesday 25th Feb to Saturday 7th March

Dear Robin,

As you may know we are in the process of producing a live record/tape of STEVE NEWMAN & TONY COX, and SYD KITCHEN.

Most of the live tracks have been done, and we'd like to add the PLAYHOUSE CELLAR concerts to the project. Would it be possible to use the DAT on those nights?

The equipment discussed with PEGGY:

Tuesday 25th to Friday 28th Feb nightly.

TONY - 4 lines/Guit + Vox (PL95/SM 58 or similar)

STEVE - 4 Mic Lines/Guit + Vox "

SYD - 2 lines/Guit + Vox "

(Vox mics need 3 x boom stands.)

2 x xtra Lines phantom 48v for our mics 2xAKG CK9's or

Neuman KM84's (Guits & Ambiance)

Total: 7 x Mic lines

2 x Mic lines 48v

6 x line inputs

We'd like to Mic the drum kit for the MIKE SMITH BAND - not for level...but for spread and Recording.

Hope this meets with your approval.
