Dave,

Congratualtions! We've finally made cyberspace together. It's an historic moment that two guys one from MINnesota the other from South Africa are doing this. Just think, a year ago all of South Africa was basically in a black out! Now look. Incredible. Hey don't forget to check out Shawns web page, And I'll be sending you a bunch of hip USA web server sites. Also, I'll talk to you about how we can use this technology at the Fen next year.

Goodbye phone bills! Goodbye unnesscessary fax paper. Save the trees!

Until next transmission.

Arlo

3RD EAR USA - How did these get released here without permission or you knowing it? Are you talking publishing? Record masters? Cassette? CD? Vinyl? Do you know approx when?

AZUMAH (KAZ)

SIPHO MCHUNU - Have a title? I can call Shanachie and find out. I can contact US copyright dept and see if a (SR) copyright was filed on a master. What do you own of this?

RHYTHM OF RESISTANCE - Tell me name of tracks and date released I'll call Virgin and get an accounting. Quicker and cheaper than a lawyer.

ROB REAVES - If you have his number I'll call him and bug him to hand over some pics.

HEMMINGS - Do you have a new number?

FRICKE - Do you have his fax number? And if he agrees to bring me over in exchange for a magazine story on his resort how does 3rd dear benefit?

BART and JANINE - give my best regards. So, Bart finally put his glider down! What a guy. No shots yet. How's Arlo?

Sincerely,

Arlo Hennings
