## Message from the Chairman

The Natal Folk Music Association was founded by David Marks in 1966 and today is one of the most active folk clubs in South Africa, with membership exceeding three hundred and enjoys the support of many talented and creative folk artists.

Once a year, in July, the association presents its Annual Folk Festival which reflects the ambitions, hopes and most important, the achievements of the association and its members. Over the past year the folk club has put on a number of concerts; held countless informal musical get-togethers; supported charities both musically and financially; held weekly workshops; sponsored a highly successful song writing competition designed on the one hand to try to stimulate interest in song writing and on the other hand to offer recognition to those members already writing their own material; representatives of the club were sent to the Four Winds Folk Festival in Port Elizabeth and to Rhodes University Annual Fold-All . . .

This year we are honoured to have as guests a number of South Africa's top Folk personalities and I sincerely hope that next years committee will continue to strengthen its relationship between Natal Folk and all other Folk Clubs in South Africa.
