THE ZUID-AFRIKAAN. CAPE TOWN, OCTOBER 28, 1836.

It is impossible for any one, in the slightest degree, acquainted with the character of the late Caffre War, to peruse Lord Glenelg's Despatch to His Excellency the Governor, of the 26th December last, without mingling feelings of indignation, contempt, and regret...

Lord Glenelg's Despatch is full of errors, and it is not possible to give a full and comprehensive detail of the Causes of that War, and that the fault only lay in the bigoted prejudices of his Lordship's mind...

Original Correspondence.

Our worthy Governor has at last received a Reply to the petition of the Slave Proprietors, praying that Compensation Money may be sent to this Colony, and that the Slave Proprietors be reimbursed for the expenses of the late war against the Caffers. The Lords Commissioners of the Treasury have decided that the mode of payment proposed by the Slave Proprietors is impracticable, as it is liable to difficulties which are insurmountable, and that the amount of the late war, which was expended in the late war, should be paid in the manner proposed by the Slave Proprietors, and that the amount of the late war, which was expended in the late war, should be paid in the manner proposed by the Slave Proprietors. DIRECTORS OF THE STEAM NAVIGATION COMPANY.

GENTLEMEN,—In the absence of the Editor for the Editor calls the attention of the Public to your Company, and recommends the "good men and true" to take the whole of the business into their own hands, and exclude those who have only looked on as spectators. In other words, who have not paid their second instalment, from all further participation according to the Resolution of the last General Meeting.

One reference to your last Advertisement, I find you have promised to give the sum of £5000 for the payment of the second instalment for what purpose, then, do you expect to get your public notice, unless to create dissension amongst you. You are bound to take notice of this, and either "exclude" the writer, or mark your sense of such conduct by a resolution on the subject.

One would naturally suppose before a person could be made a body of men like the Subscribers, that he would be found "a good man, and true." In Mr. Fairbairn's case? He has paid the second instalment on his two shares? No! These Gentlemen, follow his own advice—exclude him!!!

Some Shares in the Central Expedition are not yet paid up. These Mr. Fairbairn stands as having "made a bad bargain." Having been due two years and a half it may be long before you get it. Gentlemen of the Committee, are you doing your duty? A Shareholder of both Companies.

ARRIVAL OF THE HON. COL. SMITH AT GEORGE.

The inhabitants of this Town expecting the arrival of the Hon. Col. Smith on Wednesday, the 5th Inst., were seen fully prepared to give him a cordial reception; and at an early hour a party of gentlemen proceeded for the purpose of meeting him at the Tote House on the other side of the Cradock Hill, where, with his usual civility, the Colonel was there sooner than they expected. They however had the pleasure of meeting that meritorious Officer on the summit of the mountain; a number of armed Burghers were waiting at the Malpas-River, and on his ascending the height, our general and long continued shout of joy and salute of respect greeted him. Several ladies rode to meet Mrs. Colonel Smith. On entering the Town, the Colonel was welcomed with a salute of artillery, and the burghers who escorted the gallant Colonel and his Lady, formed in line before the house of the Provisional Civil Commissioner, where he and his esteemed consort alighted under the great cheering of a numerous concourse of the inhabitants, and the firing of the mortars of our worthy burghers. The Colonel, shortly, but most feelingly addressed them; thanking them for the services they had so willingly performed under him, and congratulating them on their now being able to sit in peace in the bosom of their families. Cheering accompanied by "bring of musketry," was kept up for some time after the noble Colonel had entered the house of the Provisional Civil Commissioner. The evening he was in the Town was illuminated, and the greatest liberality prevailed to a late hour. The next day, a Public Dinner was given to Colonel Smith, in the house of Mr. Adams. All the respectable inhabitants of the Town were present. Mr. John G. Burg presented.—Mr. Burard de la Harpe, Vice-President, Messrs. Justice Meyer and M. Garcia, Company,—and it is but justice to them to observe, that the dinner which they got up was highly creditable to them, as gratifying to the anxious desires of the inhabitants in doing their utmost to evince their feelings of esteem and gratitude on the occasion; for the reasonable and invaluable services of the free Burghers of the Province of the Cape of Good Hope, and the usual profusion of their being so, President, that of the Health of our beloved Governor, Sir Benjamin D'Urban, was drunk with deafening applause.

The President shortly afterwards rose and said,—Gentlemen,—with no ordinary feelings of delight and gratitude, in which I am confident you all fully participate, I have now the honor of proposing the health of the gallant and intrepid Colonel Smith; to whose extraordinary and powerful exertions we are mainly indebted for the salutary results attending the late disastrous war, and for which he must be handed down to posterity with that feeling of gratitude, which he so richly deserves, and for which some of us have been so happy to be permitted to do for him and his noble family. grat delight to witness the general good spirit which universally prevailed—and which induced the population to arm—every part of the Colony was more energetic—most ready to contribute by every means to the defence of the Frontier, and to the defeat of the numerous enemy, who was waging a relentless war upon their afflicted countrymen, and while you, Gentlemen, thus publicly observe upon my conduct, it is most gratifying to me to think, that the services of the inhabitants of George Town and District, were exceeded by those of any other part of the community at large. (Amosus cheering.) I have the greatest satisfaction when I advert to yours; my competitors were assembled from the Burghers of George District, and while I assure them of His Excellency the Governor's most ardent desire to meet their wishes in every respect, as far as it may be practicable, I must here commend their loyal, willing, and obedient conduct on every, and the many arduous occasions upon which I was identified with them in the field. (Cheering.) The conspicuous gallantry of the detachment under Field-Commodant Badeneyer, when assailed by such superior numbers of determined barbarians, will be handed down to posterity in this Colony as a bright example; (cheering); and while the father may to mourn the loss of his son, he may console himself with the reflection, he fell valiantly in the defence of his country.—The services the Burghers are called out to perform against our barbarous enemy, I am aware, is laborious, laborious, and inconvenient; still, in all countries the people are subject to much greater calamities of war, than to arm in their own defence, and the cheerfulness with which, on the late eventful occasion, every Burgher repaired in the field, best evinces the good spirit which actuated them, than any thing I can assert. (Cheering.) I must, however, cease, as I have never more than a few minutes, and I may apologize if I undertake against our vigilant enemy, than when any force was composed of a considerable portion of mounted Burghers. (Cheering.)

Gentlemen,—I do assure you, and with great sincerity, that as much as I value the marks of your approbation of my services, (Applause.) Impartiality I have aimed at, to show clear of all party bias by my endeavor; I have pursued a straight forward, though frequently a rugged and most uneven path; my reward, my conscience and the approbation of my fellow countrymen, will be my only and most precious possession. (Cheering.)

On my first arrival in this Colony, some six months ago, I had the pleasure of bearing the high encomiums which have been passed on my friend by his zeal and ability in conducting a most difficult and arduous campaign. For a consider- able period after my arrival, I was prevented by ill health from joining a frigate which was to sail for Africa; and it is with a grateful remembrance that I had the good fortune to arrive at King William's Town in time to see my friend surrounded by a people whom he had first taught to fear him as a soldier, and subsequently to esteem and respect him as their Governor and Protector.

From thence we have proceeded, as you know, through a considerable tract of country, in the whole of which the reputation of my friend has been too illustrious for me to attempt a description.

The marks of attention and regard which have been offered him in the large Towns, you have been made aware by his public prints; but it has been my lot to accompany him both to the hut of the Caffer in his wild country, and the cottage of the humblest Boer within the precincts of the Colony, and I can safely say, that by the poor and indigent he is, it is possible, held in greater esteem than with the rich and powerful; and long may Colonel Smith live to enjoy the remembrance of the honor and distinction you have this day heapd upon him. (The gallant Major then sat down amidst long and reiterated cheering.)

Colonel Smith then proposed the Protectorate of George's and the Provisional Civil Commissioner retained the thanks for the public prints; but it has been my lot to accompany him both to the hut of the Caffer in his wild country, and the cottage of the humblest Boer within the precincts of the Colony, and I can safely say, that by the poor and indigent he is, it is possible, held in greater esteem than with the rich and powerful; and long may Colonel Smith live to enjoy the remembrance of the honor and distinction you have this day heapd upon him. The name of Barrett will ever be blended in our minds with all that is connected with the prosperity of the Colony; and both the gallant Colonel, and his renowned Lady, will never cease to be spoken of with gratitude and esteem. It is but due to Major Havelock to say, that all who have had the pleasure of becoming acquainted with him, will be happy to see him at George, should he ever guide his steps to our little Town again. George Town, Oct. 10, 1835.

The Lieutenant Governor has been here. He tells the news, that the English are willing to follow up the evidence, and that it is all correctly reported in the papers; that they are only jealous in consequence of being a "boer kind." Bring appointed (French's Charge desk).
