ZUID-AFRICAAN

CAPE TOWN, NOVEMBER 4, 1848.

We take the liberty to direct the attention of the public to a notice issued by the Collector of Customs...

We are fully aware of the existing general want of laborers, and it therefore gives us great satisfaction to find that means have been resorted to in order to provide for this exigency...

Why cannot the custom, generally adopted in Europe, with such favorable results, be also introduced here, namely, to take no person into service unless he shall be provided with a certificate of good conduct from his last employer?

We have no doubt that if the new comers knew that, on making a change of masters, they would require such a certificate, it would have a wholesome tendency to induce them properly to attend to the performance of their duties...

We acknowledge the receipt of a communication signed "A Wine Farmer," and though we do not assume to ourselves the arbitrary power of refusing insertion in our columns to all such subjects...

It is perhaps but too true, that during the comparatively prosperous condition of the Corn Farmers, there were those among them who looked upon their less privileged brethren, the Wine Farmers, with a contemptible pride...

These questions are submitted to the consideration of "A Wine Farmer," in a spirit of charity, and whilst we await his further desire, we shall meanwhile bestow some further consideration on his communication.

FATAL CONFLICT!

H.M.S. North Star, arrived at Sydney, brings intelligence of an unsuccessful and fatal attempt to Heck's pah. On 28th April, the form of proclaiming martial law was performed on Kororika beach...

The Premiums are payable yearly in advance, or, at the option of the Assured, half-yearly, with a slight increase of the rate.

The Capital and Profits of this Institution are the ENTIRE PROPERTY of the holders of Policies of Insurance. The Profits will be divided amongst the holders of Policies, at the termination of every period of THREE YEARS, after the year 1850, when the first distribution will take place; and each holder may determine that his share shall be paid in the sum assured, by him, or converted into a present payment, or applied in reduction of the future annual premiums payable by him.

The pecuniary advantages, therefore, are the greatest that can be secured to Policy-holders in any Institution of this nature.

Any Person whose Life is assured, and who has paid Five Annual Premiums, may proceed direct to any part of this Colony, and to any dependency thereof, and to any part of Europe in time of peace, at his pleasure.

Any Person whose Life is assured may proceed direct to any part of this Colony, and to any dependency thereof, by sea and by land, at his pleasure.

For those who have not paid Five Annual Premiums, a License from the Board of Directors, but no additional Premium is required, when the proceeds beyond the limits of this Colony and the dependencies thereof.

No Institution of this nature, if well conducted, can reasonably consult the convenience of the assured to a greater extent.

By comparing the Rates or Scales of Premiums, the Public will perceive that those adopted by this Society are lower than those adopted by any respectable and safe Company, to which, of course, a proper return for paid up Capital, for risks, with profit to the Shareholders, must be provided for, as well as the benefit of the Assured or Policy-holders.

In this Society the Members and Policy-holders are the only Shareholders, receive back directly whatever they pay, and rate the Tables may still retain. Every error, therefore, fully corrects itself—and in this respect, also, MUTUAL LIFE ASSURANCE SOCIETIES excel all others.

The Principle and Tables of the Scottish Friendly Life Assurance Society have been adopted; and that Society in the course of only Thirteen years, from its commencement, after meeting all demands, set forth that its "NETT REALIZED PROFITS" amount to £263,719 9 s. 6 d., although its "GROSS PROFITS" amount to £1,000,000.
