The Premiums are payable yearly in advance; or, at the option of the Assured, half-yearly, with a slight increase of the rate.

The Capital and Profits of this Institution are the ENTIRE PROPERTY of the holders of Policies of Insurance.

The Profits will be divided among the holders of Policies, at the termination of every period of THREE YEARS, after the year 1850, when the first distribution will take place; and each holder may determine that his share shall be added to the sum assured by him;—or converted into a present payment;—or applied in reduction of the future annual premiums payable by him.

The pecuniary advantages, therefore, are the greatest that can be secured to Policy-holders in any Institution of this nature.

Any Person whose Life is assured, and who has paid Five Annual Premiums, may proceed direct to any part of this Colony, and to any dependency thereof;—and to any part of Europe in time of peace, at his pleasure.

Any Person whose Life is assured may proceed direct to any part of this Colony, and to any dependency thereof, by sea and by land, at his pleasure.

For those who have not paid Five Annual Premiums, a License from the Board of Directors, but no additional Premium is required, when the proceeds beyond the limits of this Colony and the dependencies thereof.

No Institution of this nature, it will therefore be seen, can reasonably consult the convenience of the assured to a greater extent.

By comparing the Rates or Scale of Premiums, the Public will perceive that those adopted by this Society are lower than those adopted by any respectable and safe Company, in which, of course, a proper return for paid up Capital, for risk, with profit to the Shareholders, must be provided for, as well as the benefit of the Assured or Policy-holders.

In this Society the Members and Policy-holders being the only Shareholders, receive back directly whatever excess of rate the Tables may still retain. Every error, therefore, fully corrects itself.—and in this respect, also, MUTUAL LIFE ASSURANCE SOCIETIES excel all others.

The Principles and Tables of the Scottish Mutual Life Assurance Society have been adopted; and that Society is the course of only thirteen years, from its commencement, after meeting all demands, set forth that its "NETT REALIZED FUNDS amount to £268,719 6 s;—although in Scotland the rate of interest is more than FORTY PER CENT. LOWER THAN AT THE CAPE."

Office of the Society, 19, HERRINGBANK, Cape Town. Office hours from 9 o'clock A.M. to 4 o'clock P.M.

"The Directors, and all persons connected with the management of the Society, have signed a declaration that they will preserve inviolable secrecy as to all business transacted with the Society."

THIS SOCIETY WILL ADVANCE MONEY UNDER FIRST MORTGAGE ON LANDED PROPERTY, UPON SHARES IN PUBLIC COMPANIES, or other good Securities.—Applications to be forwarded in writing, with the proper Documents.

All Letters to be post-paid.

MR. MUX, K. G. G. doth rage with demon-like fury

Against his old enemy, or neighbour, H. DAUVY. With acrostitics and blunders, his venom he spread; And thinks, (but thinks wrong), that DAUVY him dread. Such instructions, effusions, and all such like stuff Will scarce pay the printer, saying nought about snuff. Mr. DAUVY, I know, had long the same shop, And soon as he left it, in MUX, X did pop. He, sending his snuff's wont like DAUVY's sell, Would fain make it known, his does DAUVY's excel. But such like humbugging, for long will not last, And the net he has set, in himself will be cast. As the public at large, so well DAUVY know, That so base insinuations can him overthrow. His snuff's and tobacco's are all of the best, All say that have bought them and proved the test. Number Twenty-two in Hottenot's-square, Is DAUVY's new shop, and his snuff's all so rare; Likewise his Branch shop, in Keizergracht-street, At the corner of Grave-street, the same you will meet. So try them and buy them, throughout the New Year And you'll all be well suited, there's none need to fear.
