BYVOEGSEL TOT DE ZUID-AFRIKAAN, 9 DEC. 1847.

No. 1,256.

AMSTERDAM.

Onder den naam "De Zuid-Afrikaan", die dagelijks in het algemeen applique op voortdurend de laatste nieuwsberichten, behoudt zich het recht voor om, indien zij van belang, verder te geven dan de algemeen elke dag in de kranten verschenen nieuwsberichten.

OE ZUID-AFRIKAAN.

KAAPSTAD DEN 8 DECEMBER 1847.

We hebben den 11. Zaterdag vanmorgen, ter kwartier, een brief tebaar ontvingen, van den Hoofdmeester van de Koninklijke Macht...
We have been informed that the meeting of the Cape Town Municipal Council was on Saturday evening, and that the proposal of the late Mr. S. C. G. Phipps for the introduction of a bill to regulate the water supply of the city, was referred to the committee for the purpose. The committee, however, are reported to have recommended the bill for adoption, and it is expected that it will be brought before the public at an early date. The meeting was opened by the Mayor, who stated that the citizens were much indebted to the committee for their good work in the past year, and that he hoped they would continue to do so in the future. The Mayor also expressed his confidence in the ability of the committee to carry out their work efficiently. The meeting adjourned at a quarter past ten o'clock.

The Governor's Speech.

The Governor, in his speech, said that the government was pleased to learn of the success of the committee in the past year, and that they had done good work in the interest of the city. He also expressed his satisfaction with the conduct of the committee, and that he would support them in all their future work. The Governor concluded by expressing his hope that the committee would continue to do good work in the future.

The Estates Commission.

The Estates Commission, in their report, stated that the estates in the city were in a good condition, and that there was no reason to believe that they would not continue to be so in the future. They also recommended the adoption of some measures to prevent the sale of estates at too low a price, and that such estates should be held by the government until the time should come when they could be sold at a fair price. The report was adopted by the committee, and was referred to the council for consideration.

The Town Hall.

The council, in their report, stated that the funds for the construction of the town hall were still insufficient, and that they would have to be secured from other sources. They recommended the adoption of some measures to increase the revenue of the city, and that the council should consider the possibility of securing loans from other sources. The report was adopted by the council, and was referred to the committee for further consideration.

The Water Supply.

The committee, in their report, stated that the water supply of the city was in a good condition, and that there was no reason to believe that it would not continue to be so in the future. They also recommended the adoption of some measures to increase the amount of water available for the city, and that the council should consider the possibility of securing loans from other sources. The report was adopted by the committee, and was referred to the council for consideration.

The Police.

The council, in their report, stated that the police were doing good work in the interest of the city, and that they would continue to do so in the future. They also recommended the adoption of some measures to increase the number of police, and that the council should consider the possibility of securing loans from other sources. The report was adopted by the council, and was referred to the committee for further consideration.
