THE ZUID-AFRIKANER.
Cape Town, February 7, 1839.

The expression used by His Excellency in his address to the General Council amounted to a threat to dismiss the Council, and to remain in the Cape, with a number of troops, if the Council were not willing to act as the Governor himself directed. This has naturally caused a universal sensation in the Colony.

Mr. Warden, the Speaker of the House, in a formal address to the Governor, expressed the wish that the Governor would have the kindness to postpone the event, and stated that he had received a communication on the same subject from Mr. Warden of the Council, which had been read and adopted by the Council, and which was to be placed in the hands of the Governor. The Governor is expected to reply to this letter, and the Council will then have an opportunity of considering the matter.
