

THE ZUID-AFRIKAN.

Cape Town, July 21, 1853.

An ignorant man who feels his ignorance and regrets it, is a man of sense, and has made the first step towards becoming well informed. It is true of individuals; it is no less so of communities and entire nations. The people of this Colony are a lot to enter on a new sphere of action. Duties await them, public duties, for which they could hardly be prepared in that portion of life which is usually devoted to education. Their fathers had lived under a form of government which may be described without much exaggeration as despotism, hiding its ugly features behind the mask of mock representation. In those days arbitrary taxation and a reckless waste of the public money were acquiesced in as evils, galling enough to be sure, but without a remedy. In those days, when property was insecure, men, not naturally covetous, toiled for wealth, not knowing what the state might claim, and mainly anxious that the taxgatherer should not leave them a competency. A liberal education, under such circumstances, was a blessing of doubtful value, in as much as it only made its possessor more keenly sensible of injuries, daily inflicted on himself and his fellow-subjects, under the sacred sanction of the law of the land. Many things have conspired to alter this state of affairs for the better. Abuse of power led to resistance,—but constitutional resistance, and that, under an enlightened Sovereign, who acknowledges none but free subjects, as her own, has been a recommendation, and has paved the way for those liberal institutions in which we now rejoice. But our new privileges impose new duties. Men who had learned to obey, and at most to memorize and protest, will soon be called upon to legislate and to advise the Executive Power. The passive obedience to which we have been trained, must soon make room for the active duties of the legislator. And on whom shall those new duties devolve? None can know: it therefore behoves all to be ready, lest any should answer the confidence of their fellow-colonists with imbecility and inefficiency. Let none be disheartened. An auspicious symptom has announced itself. The public are calling out for information. Port Elizabeth, with characteristic promptness, has set the example by ministering to this new want by a course of popular lectures; Graham's Town is calling out for new supplies of knowledge through a similar channel; and in Cape Town a portion of the Press has urgently recommended the same thing, while Mr. G.'s letter in the *South African Commercial Advertiser*, advances very cogent arguments for carrying into effect an institution, which, without any expense, promises the most valuable results. Shall the East be stirring and the West supine in this matter? We cannot believe it. There is an acknowledged intellectual want, and shall we say we have not the means of supplying it? Where is the public library with its 30,000 volumes? Where are the Bench and the Bar? Where are our High Officials and our Indian Visitors? Will all these, while the people are crying out—not "give us bread" but "give us knowledge?" If the press directs public attention to this want, and suggests how it can be supplied, it must be allowed to have done its share of the duty. The future legislation of this Colony is a matter in which all have a stake. Let all that have the remotest chance of making themselves useful, enter upon a course of reading calculated to prepare them for serving their country on this great emergency. But above all, let not the remainder of the winter season pass away, without a course of popular lectures on Government and Laws. We could name the men whose acknowledged talents and mature judgment qualify and recommend them for the task, and we take upon ourselves to recommend the task to them, because we feel confident that we could obtain hundreds of signatures to a Requisition to that effect addressed either to Mr. P., Mr. B., or Mr. F.

It appears that the bark *Chaba*, from London to Algoa Bay, having on the 12th instant struck on a sunken rock off Cape Recife, in consequence of which she unshipped her rudder and made much water, was abandoned by the crew and passengers on the 15th. Some of these having arrived here on Tuesday by the *Onward*, have been transferred from the *City of Calcutta*. The remainder, (with the exception of two men who refused to leave the ship,) were taken on board the *Kirkman Tinley*.

On Tuesday night, a severe conflagration occurred in Mr. Prestwich's bakery near the North Wharf, which, together with the mill and smith's shop adjoining, were destroyed. It is said that the property was insured.

Several more requisitions, it will be seen, have been issued, requesting gentlemen to allow themselves to be put in nomination as candidates for seats in the upper House. Mr. Bayley, Dr. White and Sir Andries Stockstrom have declined to become such candidates.

WESTERN PROVINCE BANK,

AT THE PAARL.

On Friday, the 15th July 1853, the sixth annual general meeting of shareholders in the above Bank, was held, J. R. Zeeber, Esq., was unanimously called to the chair. After the chairman was read and the General Statement submitted to the shareholders.

It was thereupon moved by Mr. Gideon Johannes Louw, seconded by Mr. A. Boman de Villiers and unanimously resolved,—That the Report be adopted and the account approved and published in the *Zuid-Afrikaan* and any other paper.

Moved by Mr. A. J. Becker, seconded by Mr. Gabriel Johannes Hugs, and unanimously resolved,—That the meeting be deeply grateful to the Directors for the faithful performance of their onerous duties during the past year, and particularly to Mr. David Andreas de Villiers who now retires from the Direction, for his unintermitted and faithful labours during the 6 years of the Bank's existence, and for the many difficulties and sacrifices which he had to contend with on its establishment and during its existence. The meeting votes to acknowledge him as one of the most zealous advocates of this most useful institution, of which he was not only one of the principal projectors, but whose interests he has zealously and honestly endeavoured to promote.

Resolved: K. N. van Breda and A. J. Becker were then elected as Directors, in the room of those who retired.—*Correspondent.*

A BOEN'S LIFE SAVED.—(Communicated.)

Mr. Lodewyk Prins, residing in the Kooles Bakkerfeld, upwards of twelve hours from Tulbagh, having suddenly thrust his hand into his pocket, in which a large sharp knife was lying open—the knife penetrated the fleshy part of his hand up to the arteries of the wrist, where they join and give off branches, to supply the hand and fingers with blood. Profuse hemorrhage took place, and he had nearly bled to death before Doctor Simpson, of Tulbagh, arrived. He was so weak on the Doctor's arrival, that the bleeding was easily stopped, by pressure with bandages, &c. Two days after, the bleeding returned with his strength. This was again arrested by pressure on the arteries above the wrist. Three days afterwards the blood gushed out with greater violence than ever. Dr. Simpson had felt it his duty to remain and watch the case as he was prepared for the worst. It now became necessary to take up and tie the large artery which supplies the forearm and hand with blood, a 1/2 way between the shoulder and the elbow. This operation was successfully performed by the Doctor, assisted by Mr. Wm. Thom and Mr. Wm. Jansen. The bleeding was effectually stopped, and both wounds healed up. Dr. Simpson returned home on the understanding that Mr. Prins would come and reside some time at the Waterfall with Mr. J. C. de Wet so as to be enabled to preserve the use of the limb and for the Doctor to watch the case. Unfortunately, Mr. Prins was induced to go to a farm in the Waterfall district which he had recently bought, and from the effects of the jolting in the wagon, excitement, and using his hand too soon, a small aneurism, about the size of a large nutmeg, formed at the wrist where the original wound had been. In a short time the skin covering this tumour burst and hemorrhage again occurred. Mr. John Faure, Justice of the Peace, attempted to stop it, but in vain. Dr. Simpson was again sent for. On his arrival he found the blood leaping in jets from the old artery, it not having been obliterated as expected. He immediately (with candle light as it was near midnight) proceeded to another operation, stating that, in the event of its not succeeding, he was prepared to amputate the arm half way between the elbow and the wrist, otherwise Mr. Prins would die from loss of blood. By passing a ligature, consisting of two strong threads, under the tumour, and tying one of them tight towards the hand, and the other towards the arm, including the other half of the swelling, he succeeded again in stopping the bleeding.

Happily, this last operation has been successful, and Mr. Prins, after being upwards of three months on the brink of the grave, is now recovered and likely to live long to fulfill those duties as son, brother, husband and father, in the praise-worthy manner he has hitherto done.

FIRE AT PORT ELIZABETH.

(From the P. E. Telegraph.)

On Tuesday last a fire broke out in an old building belonging to Government, situated at the summit of White's Road, Port Elizabeth. It seems that a spark fell on the roof, which was composed of straw or thatch, and the whole was speedily in a blaze. This house was used as a school room, for the school commenced by Bishop Gray, and so ably conducted by Mr. Hardwick. Most of the books belonging to the children, were saved from the flames, which entirely gutted and destroyed the building. We regret to hear that the later gentlemen is likely to prove a considerable loser by the destruction of the fixtures, &c. A detachment of the 12th Regt. stationed in Port Elizabeth, behaved most nobly on the occasion of this fire, exerting themselves to the utmost to prevent the destruction of property. They deserve something more than the thanks of the townspeople.

A letter from Colesberg, dated 6th inst., says—“Our Post has not yet arrived and in two hours the Post closes again. The mail cart arrived last night, but all the letters were gone, they had worn a large hole in the bag, and had fallen out; the post-rider never found it out till he came to unload. They sent back at once, but as yet there are no signs of their coming.”—*Graaff Reinet Courant*

H. C. VAN NIEKERK.

THE FIRST

PAARL OMNIBUS

COMPANY.

THE BUSES belonging to this Company start regularly EVERY MORNING from the PAARL from the residence of Mr. W. DE TOIT, next "Gird's Hotel" and pass "Weingerts Hotel" to Cape Town, and leave again the same day for the PAARL from Mr. AN JON MARAIS' Boarding-house corner of Short-market and Long-streets where places may be booked.

In the forming of this Company, the chief object has been the comfort and accommodation of the public, in establishing an omnibus communication between the Paarl and Cape Town, and a greater facility than has hitherto been enjoyed by persons in business, and strangers, in visiting the delightful Village and its Environs. Nothing has been spared which might in any way obstruct or impede the progress of this enterprise, and liberality could suggest to render the FIRST PAARL OMNIBUS COMPANY perfect in all its details. The Buses are conveyed by four strong and quiet teams of Horses; each change of team occupying only from three to four minutes. A House has been erected at the half-way station for passengers, well supplied with Refreshments, and with separate retiring rooms for Ladies.

Attached to the Buses is a light spring Little Go to bring passengers to and from the lower part of the Paarl, free of expense, and, if to the Village of Wellington, for a moderate charge.

Western Province Bank,

Sixth Annual Report of the Chairman & Directors of the Western Province Bank, made at the Meeting held on Friday, the 15th July 1853.

In submitting this Sixth Annual Report to the Shareholders of the Bank, the Directors have again the satisfaction to report, the continued flourishing state of this Company, and this notwithstanding the establishment of another Bank in the village since the past year, in consequence of which greater circumspection was naturally required in discounting Bills and other bills than in the previous years. This, however, has not had such an influence upon this Company as might have been anticipated.

It will appear from the accounts laid on the table that the amount of Bills received during the year ending June 1853, exceeds that of the previous year by £2840 12 10s, and deposits by £427 17 6d.

The General Statement shows that for the past year (after deducting all expenses) the clear profit amounted to £1093 2 4s, or full 12 per cent upon the amount of paid-up capital, of which only £314 5s 4d will be added to the already existing Reserve Fund of £2655 14 3s, with the view of completing it, leaving a dividend of £1950 or £1 7 per share, to be paid to the Shareholders, whilst the balance of £8 16 7s will be directed to the profits of next year.

The Directors wish to remind the Shareholders that £50,000 or one-third of the paid-up Capital, was only called in and paid up during the past year, viz., £20,000 on the 15th Aug., and £30,000 on the 15th December 1852. If these payments had been made at the proper time, the profits would have been materially increased.

In conclusion the Directors have the satisfaction to inform the Shareholders, that since the establishment of this Bank, no losses whatever have been sustained.

HOLLOWAY'S OINTMENT.

A PERSON 70 YEARS OF AGE CURED OF A BAD LEG, OF THIRTY YEARS' STANDING.

Copy of a letter from Mr. Wm. Abbs, Builder of Gas Ovens of Rotherhithe, near Huddersfield, dated May 31st 1853. To Professor HOLLOWAY.

Sir,—I suffered for a period of thirty years from a bad leg, the result of two or three different accidents at Gas Works; accompanied by scabrous symptoms. I had recourse to a variety of medical advice, without deriving any benefit, and was even told that the leg must be amputated, yet, in opposition to that opinion, your Pills and Ointment have effected a complete cure in so short a time, that few who had not witnessed it would credit the fact.

(Signed) WILLIAM ABBS.

The truth of this statement can be verified by Mr. W. P. England, Chemist, 13, Market Street, Huddersfield. A DREADFUL BAD BREAST CURED IN ONE MONTH. Extract of a letter from Mr. Ferdinand Turner, of Benhurst Kent, dated December 13th, 1850.

To Professor HOLLOWAY.

Sir,—I suffered for a period of thirty years from a bad leg, the result of two or three different accidents at Gas Works; accompanied by scabrous symptoms. I had recourse to a variety of medical advice, without deriving any benefit, and was even told that the leg must be amputated, yet, in opposition to that opinion, your Pills and Ointment have effected a complete cure in so short a time, that few who had not witnessed it would credit the fact.

(Signed) WILLIAM ABBS.

Dear Sir,—My wife had suffered from Bad Breasts for more than six months, and during the whole period had the best medical attendants, but all to no use. Having become a useful woman in my own leg by your invaluable medicine I determined again to use your Pills and Ointment, and therefore gave them a trial in her case, and fortunate it was I did so, for in less than a month a perfect cure was effected, and the benefit that various other branches of my family have derived from their use is really astonishing. I now strongly recommend them to all my friends.

(Signed) FREDERICK TURNER.

AN INFLAMMATION IN THE SIDE PERFECTLY CURED.

Copy of a Letter from Mr. Francis Arnot, of Breahouse Lothian Road, Edinburgh, dated April 29th, 1851.

To Professor HOLLOWAY.

Sir,—For more than twenty years my wife has been subject, from time to time, to attacks of inflammation in the side; for which she was bled and blistered to a great extent till the pain could not be removed. About four years ago she fell in the papers, the wonderful cures effected by your Pills and Ointment, and I thought she would give them a trial. To her great astonishment and delight she got immediate relief from their use, and after persevering for three weeks the pain in her side was completely cured, and she has enjoyed the best of health for the last four years.

(Signed) FRANCIS ARNOT.

The Pills should be used conjointly with the Ointment in most of the following cases:—
Wounds and Ulcers, Bad Legs, Bad Breasts, Sore Nipples, Sore Throats, Ching Foo, Yaws and Cocos Bar, or Africa, King's Evil, Stone and Ulcerated Caners, Piles, Tumours, Swellings, Contracted and Stiff Joints, Scrofula, Ringworms, Burns, Scalds, Chapped Hands, Chilblains, Gout, Rheumatism, and almost every other External Disease, particularly the Bite of Mosquitoes and Sand Flies.

Sold by the Proprietor, 294, Strand, (near Temple Bar) London, and by all respectable Vendors of Patent Medicines throughout the civilized world, in Pots and Boxes, at 1s. 6d., 2s. 9d., 4s. 6d., 11s., 21s., and 35s. each. There is a very considerable saving in buying the larger sizes.

N.B. Directions for the guidance of Patients are affixed to each Pot or Box.

Sold by all Vendors of Medicines throughout the Cape Colony.

CAPE PARLIAMENT. ADVERTISEMENTS.

SIR A. STOCKENSTROM, REPLY.

Dear Sir, I have the honor to acknowledge the receipt of your resolution...

Such a document from a member of my countrymen could not, under any circumstances, be otherwise than acceptable to me...

I was little, if anything, more than a mere boy when I was appointed to be one of your Magistrates...

I hope, gentlemen, that I have at least succeeded in showing that your sense of my "ambition" is perfectly well grounded...

Not long after my retirement, I was induced, at the instance of some of the best men in the Mother country, to accept of the office of one of the Secretaries of the Cape Colony...

"Feasting like little wanton boys that swim on bladders."

As well as by the dread of collisions (then already foreseen as inevitable) and since two fatal collisions had occurred...

This dismissal enabled me to enjoy general obscurity within happy walls, until one of my little wars with great calamities...

DE ZUID-AFRIKAAN. Knaapstad, den 21 July 1853.

En onwetend mensch die zyne onwetendheid gevoelt en betreurt, is een mensch van verstand, en heeft den eersten stap gedaan om wel onderdrukt te worden.

Wy plaatsen de mededeeling van den heer G. W. A. Van der Lingen, niet omdat wy er eenige innerlyke waarde aan hechten, maar als een ophal voor zulke lezers die nog al een grafisch hooft hebben.

REQUISITE. Wellington, 12 July 1853.
