ONE of the advantages to which the people of Natal are looking forward as the fruits of their new constitution is, that they will get the settlement of their native question in their own hands: that is, they will be allowed, in the best manner they are able, to remedy an enormous evil bequeathed to their Parliament by former mis-government. When we look abroad on those British colonies, that have from time to time been favored with what is commonly termed the boon of self-government, we cannot wholly discard the impression, that free institutions are usually granted, when they can no longer be conveniently withheld and that the object in granting them is not so much to benefit the Colonies, as to accommodate, or rather to relieve the mother-country. The policy seems to be, to persist in mis-government through the medium of Downing-street officials and their emissaries, until everything is so thoroughly embroiled, that there is but a slight chance left of emerging from social confusion, and then to say to a distracted community: Gentlemen, you are now welcome to govern yourselves. Natal is the most recent illustration of this policy founded on expediency. The interests of the different sections of the population are so complicated, that a harmonious working of a representative form of Government is hardly possible, and that anything like a radical change for the better cannot be attempted, without incurring the risk of a violent disruption. In the Colony of Natal, as in the Orange River Free-State, the English Settlers are not on the best terms with the older Colonists, the African Farmers. The latter, though perhaps even now the more numerous, will find themselves the weaker party in the approaching contest for the representation of their respective interests. They have subdued nature and turned the wilderness into a habitation for man, and, if left to themselves, would not have suffered their community to be swamped with natives; but they are no match for their English fellow-colonists in the trickeries of an election. The probable result will be, that the English will secure for themselves the lion-share of political power, and the Afrianders, that is the agricultural class, the people of the old stock, will have the alternative of submitting to the capricious enactments of a Parliament in which they are scarcely represented, or of disposing of their property at an immense discount and emigrating to the neighbouring Free-State. It will then be for the English to fraternize with their black proteges, the Zulus. That they never will. The fact is, we are doing them injustice by calling the Zulus their proteges. They are the proteges of the British Government; and that is a very different thing. The English Colonists, if they had had self-government from the beginning, would have set their faces against the intrusion of the black refugees with equal determination as the Dutch. They may have yielded to the enormous evil with less reluctance, because, though it sprung from mis-government, they had the satisfaction to know that it was English mis-government, and this, considering the force of national predilections which is so amazingly developed in every true Briton, must be a very soothing reflection. The civil war among the people of PANDA, and the horrid accompaniments of that unnatural contest have shown the Colonists, what their friends the Zulus are capable of, and so conscious are they of their danger, that while they accept the boon of self-government with one hand, they stretch out the other imploringly for military protection. After all the settlement of their native question, which in Natal, if any where, is a vital question, is as much at the disposal of the Imperial Government as ever. The legislation of their local Parliament cannot reach it; more than that, their Executive Power itself is dependent on the Governor of this Colony for anything that would affect the relations between Natal and their savage neighbours. If a man so evil tares and noxious weeds on his property, and then presented it with a luxuriant crop to a number of industrious people, telling them to make the most of it, "provided always" that they shall not interfere with the weeds, what kind of a bargain would that be? The application is obvious.

WARDMASTERS MEETING.

A meeting of Wardmasters was held on Tuesday evening the 6th instant, in the Town House, in consequence of a requisition, signed by 20 Wardmasters, requesting that the same may be convened for the purpose of taking into consideration, the dispatch of a petition addressed to Her most gracious Majesty the Queen, signed by Mr. H. C. Jarvis, as Chairman of the Municipal Commissioners, without the said Wardmasters having concurred or joined therein, or being invited so to do; and also: To reconsider their resolution on the proposed bill, for empowering the Municipality to borrow money for the sanitary improvements of the Town. Mr. Wardmaster A. Faure, J.S., took the chair. After the minutes of the former meeting were read and approved, a letter of Mr. E. G. Aspeling was read, resigning as Wardmaster for ward No. 3, upon which it was moved by Mr. Stigant, Jr. seconded by Mr. P. Schultz:— That Mr. J. Fowrie be elected Vice-Chairman of the Board of Wardmasters in the room of Mr. E. G. Aspeling, resigned, which resolution was unanimously adopted. Mr. Stigant, Jr. then moved, seconded by Mr. Gain, that the following addition be made to the rules of order of the Board of Wardmasters:— That notices of motion shall be given to the Chairman, in writing, immediately after the minutes of the last meeting of Wardmasters are read, which notice shall be read from the chair, and be taken into consideration, at any subsequent meeting, unless a majority of the Wardmasters present, shall agree forthwith to discuss the same, and any such motion shall take precedence over all other business, except that provided for by the 16th Rule of Order for this Board, and whenever such notices of motion, are taken into consideration, at any subsequent meeting, it shall stand next in order to such business as provided for in this Rule. Mr. Stigant further moved, seconded by Mr. Small:— That it shall be competent for any Wardmaster, to move an adjournment of the meeting, to take into consideration any motion of which notice has been given. It was resolved to defer the consideration of the above two motions to next meeting. Mr. Stigant, Jr. further moved, seconded by Mr. Wilson:— That the act of the Board of Commissioners in forwarding a petition to Her Most Gracious Majesty, the Queen, signed by their chairman, and the secretary of the Municipality, without the Board of Wardmasters being invited to express their opinion, and without their consent, or concurrence, is in the opinion of this meeting, in point of fact, ignoring their office, and as establishing a precedent of a dangerous character, is highly reprehensible. Upon being put to the vote, the motion was carried unanimously, and it was resolved accordingly.

Mr. Lycett then moved, seconded by Mr. Wilson:— That this meeting is of opinion, that it is not within the province of members, belonging to either of the two boards, forming this Municipality, to make use of their position as members thereof, for the purpose of meddling and interfering with religious or political affairs; and whereas the Board of Commissioners have forwarded a petition signed by their Chairman and the Secretary of this Municipality, to Her Most Gracious Majesty the Queen, on the subject of a grant of land in the Government Gardens in Cape Town, which petition is apt to be considered as emanating from the Municipality, it becomes necessary that a most respectful address to Her Majesty be prepared, and signed by the Board of Wardmasters, informing Her Majesty, that they do not approve of the steps taken by the Board of Commissioners with reference to the aforesaid petition. This motion was unanimously adopted, and it was resolved:— That the Secretary be instructed to draw up an Address, embodying the views contained in the foregoing Resolution. It was then moved by Mr. Stigant, Jr., seconded by Mr. Gain:— That this meeting is of opinion, that highly as it is desirable, some arrangements should be made, for the sanitary improvement of this City, still it is not advisable, considering that the present Municipal Ordinance, expires on the 1st of January, 1861, in which many great changes must take place before it can be re-enacted, to borrow money for any Municipal purpose whatever, especially as of Rates, any amount they may deem necessary for the Annual Expenditure. This motion was also carried unanimously. The meeting thereupon adjourned to Tuesday next the 13th instant at 7 p.m.

CAPE DIVISIONAL COUNCIL.—The Council met on the 5th instant. The report of a special committee on the application of Mr. Keage for a piece of ground at Simon's Town to erect sheds for curing fish was adopted, and a letter from the Colonial Secretary was read, informing the Council that the Governor would introduce a Bill to Parliament, transferring the Simon's Town toll to the Divisional Council. The motion of which Mr. Jarvis had given notice at the previous meeting, to the effect that a Bill should be submitted to Parliament to exempt Capetown and Greenpoint from the payment of rates to the Council, was not taken into consideration, the mover being absent. The meeting was then dissolved. A private conversation subsequently ensued as to the best means of raising funds to enable the Council to go on; the upshot of which was that the members were particularly requested by the chairman to consider the matter, and to come prepared with some plan at the next meeting.

RECOVERY OF STOLEN PROPERTY.—On the 25th Dec. last Mr. A. Stevens employed two boys named Jongie and Tommy aged 12 and 9 years, to carry some goods into a loft. When they had left he missed a gold watch and chain which he had placed on the window ledge. Notices of the theft were given to the police and in the papers, and on Tuesday last the boys were arrested, when Tommy confessed to having seen a watch in the possession of Jongie, who also subsequently acknowledged the theft, and to have given the watch and chain to a shoemaker named John property was found by the police. Jongie and Davis were fully committed for trial by the Judge of Police before whom the case was investigated.

SNAKE BITES.—Last week Mr. van Blerk, of Wildschut Brand, near Simon's Town, was bitten by a Puff Adder and nearly saved by the timely arrival of Dr. Eweleigh. On Monday last a valuable horse, belonging to Mr. Kneel, a tenant of Mr. Gird, at Paardenberg, was bitten in the lower lip by a Cobra Capella, and died towards evening. In both these cases the reptiles were killed.

WRECK OF THE "TIMOR".—The following report of the Court to inquire into the cause of this wreck has been published in the Gazette:—

REPORT.—We, the undersigned, having been duly nominated and appointed by His Excellency the Governor, under date the 29th December, to form a Court for the purpose of inquiring into, and reporting upon, the circumstances connected with the loss of the Dutch bark Timor, F. Agema, master, between the Whale Rock and Robben Island (Table Bay), on the morning of the 22nd December, 1856, do now give our opinions, after having read the reports of the said bark's log-book, the master's protest on the loss of his vessel, as well as the evidence of Capt. Agema, and that of the boatswain (the first and second officers having left for Furup), a detailed patient and searching inquiry into all the circumstances connected with the loss of the Timor, as far as lay in our power, and having well weighed and considered the evidence adduced before us, and taking each and all the points connected with the case into consideration: We are of opinion that the loss of the bark Timor was chiefly attributable to having mistaken a bright light on the shore for that of Green Point light. But we cannot but here remark that if due precaution had been taken in noting down at intervals the bearing of Green Point light, as it must (by the position of the ship) have been visible the whole of the night up to the time of accident, if the weather was clear, and also if frequent reference had been made to the plan or chart of Table Bay, and more attention paid to the lead, as well as to the sailing instructions for entering Table Bay, which it has been proved to the Court, were on board, the loss of the Timor, in our opinion, would not have occurred. The Court, however, has much pleasure in recording their opinion of the seamanship and steady behaviour of Captain Agema, the officers and crew of the Timor, under the trying circumstances in which they were placed after the accident occurred, in attempting to save the vessel, cargo, stores, &c., and the discipline that was maintained on board up to the time of the abandonment of the vessel. W. J. JAMISON, Chairman. THOMAS HINLEY, Shipping Master. W. J. VAN DE VEN, Master of the Ship Strait Daly.

Minutes of Court. The Court appointed by His Excellency the Governor to inquire into the circumstances attending the wreck of the Dutch bark Timor, on the morning of the 22nd December, 1856, met on the 31st of the same month at the Committee Rooms of the Legislative Council, Adderley-street, Cape Town.

Present: Lieut JAMISON, R.N., Port-Captain, Chairman. THOS. HINLEY, Esq., Shipping Master. W. J. VAN DE VEN, Esq., commanding the Dutch Bark Strait Daly. After reading by the Chairman, of the letter from Government, authorising the Board to sit, a protest was handed in by the Captain of the wrecked vessel, stating the circumstances under which the wreck happened. The following is a copy of this document:—

"That, on the passage from Padang, bound to Rotterdam, the vessel having sprung a leak, it was unanimously resolved to make for Table Bay, in order to repair the damage. That, on the 21st instant, at 8 p.m., the light of Green Point, being N. 4 S. by compass, and 8 miles distant from us, in the first watch, light increasing breeze to a gale and hazy sky, wind S., and S.E., we sailed N.E. 8 miles. That, at 8.30, the main topsail was unfurled. That at 10, the wind increasing, the sky being hazy, the light at intervals could not be seen. That at 1.30, the fore topsail split, which, and the foresail, were clewed up, and the main topsail lowered on the cap. That at 2, we wore the ship to W., to get to the offing, and at 2.45 that time found the light to bear S.E. by S., true compass, at 3 miles' distance. That in the next watch the wind blew a gale, and a clear sky at intervals; a high swell from the S.W.; close reefed main topsail, in the performance of which the men in the yard swung out that lead was on the lee bow, at N. by W., true compass. That the main topsail was set as quick as possible, and that we observed that the bearing of the lead did not agree with that of the light; that the ship was fast falling to leeward by the current and by the force of the wind and sea; that in endeavouring to set the foresail, the wind blew so strong that the whole crew were not able to set the sheet. At this time the vessel struck the ground, and shortly after thumped so hard that the masts sprang up; and that in setting the boats overboard foot of water were

already standing in the cabin, and the breakers broke right over the ship; that we fired signal guns, cut away the masts to ease the ship, and that the ship broke in two at 6 o'clock in the morning; that we abandoned the ship on the 22nd instant, in the life-boat on account of the high seas breaking over her. F. AGEMA, Capt. Dutch Bark Timor." "The above agrees with the statement of the protest. O. J. TRUTER, Secy."

In addition to the above statement, the Captain gave the following evidence on examination:— Captain Agema.—About 4 o'clock p.m. of the 21st, made fast. Took soundings at 10 o'clock, and found a depth of 25 fathoms, after which there was no bottom in the chain until the ship struck. At this time (10 o'clock) was steering N.E. under double-reefed fore-top-sail, whole main-top-sail fore-top-mast-staysail, and storm-mizen. At 9 o'clock lost Green Point light, the sky being hazy. At 12, observed a light bearing S.E. by S., true, which was taken for Green Point light. Wore then to the westward, and observed land on the starboard bow about half an hour afterwards. Got on more sail and headed W. true, but from the drift, made W.N.W. Both bows anchors were clear, and both chains were raised. On seeing land on starboard bow, it occurred to him to let go his anchors, but thought they would not hold, and expected to clear the danger. On seeing the breakers, the wind was blowing so strong, that there was no room to wear again. Had "Horsburgh's" instructions on board, containing sailing instructions for Table Bay. Was never in this bay before. Was perfectly satisfied with the crew's conduct. (Signed) F. AGEMA, Lat: Captain of the Dutch Bark Timor.

Herman Doubray, Boatwain.—He stated that he kept watch with the chief mate. On the night of the 21st, had middle watch from 12 to 4. Was called up at 10 o'clock to shorten sail; when on deck the ship was on starboard tack. Wore about 12 o'clock, and struck about one hour afterwards, when a light was seen to the westward.

ORANGE FREE STATE.—The accounts for this quarter, inserted elsewhere, are not of much importance. The following abridged draft of law relating to Burgher rights, published in the Bloemfontein Gazette, appears to have excited considerable attention both within and beyond the State:—

The preamble recapitulates the provisions of Arts. 1 and 2 of the Free Constitution, setting forth that all white persons who have resided six months in the State, are burghers, and shall be entitled to the full rights and privileges of burghers, provided they shall have notified themselves to the field-cornet and offered themselves for burgher service; also Art. 4 of the Convention with Sir George Clerk, providing that those British born subjects who should wish to quit the country at the expiration of three years, shall be at liberty to leave the same. And as this term expires on the 23d February, the present proposed Draft provides:—

1. That all descendants of Dutch African parents who shall have resided six months in the Free State, six months before or after the promulgation of this law, shall enjoy all burgher rights and privileges, and be considered as burghers; they shall not be allowed, however, to appeal to any other citizenship whatsoever. 2. All other persons are deemed to be aliens, and may obtain leave to settle, and exercise any trade or calling within the state, provided they shall conform to the laws; but they cannot possess fixed property, or exercise the obtaining of any office or post, without previously obtaining the sanction of the burgher magistracy. 3. For the protection which this law affords, they must bear the same burgher as the burgher of the State, and also perform burgher service for the protection of life and property. Refusing to do so, they are subject to the same penalties as burghers, and may moreover be banished out of the country, and punished if they return within the same. 4. Aliens who now own fixed property, must sell the same, or obtain a deed of burghership before the expiration of six months. Refusing, or not succeeding to do so, such property reverts to the State, and may upon the judgment of any competent court be sold by the Sheriff, and the proceeds, less all expenses incurred, handed over to the last owner or his mortgagees. 5. Persons owning fixed property, but not resident in the state, must sell the same within six months, on pain as set forth in the last foregoing article. Upon application by petition, however, and sufficient cause shown, extension of time may be granted. 6. Deeds of burghership are issued by the President to persons who have resided six months in the State, upon production of a certificate of good conduct, granted by the magistrate or other competent officer of the district in which they have resided the last twelve months; also certificate of the field-cornet of the ward in the State where they have resided the last six months; they must also state their birth place, avocation, age, whether they are married, and what further may be required. The President has discretion to depart from these stipulations in certain cases and under certain circumstances. 7. The deed of burghership is issued under the Great Seal of the State, after the person to whom it is to be granted shall have subscribed an oath recognizing the Free State as a free and independent State, and promising fidelity and loyalty to the same. 8. This article will define the sum to be paid for a deed of burghership. 9. The names of all persons obtaining deeds of burghership are to be published. 10. Any burgher quitting the state without leave of the President, and sojourning elsewhere for more than 12 months, forfeits his right of burghership; and should he return thereafter, he must go through the same forms to obtain the same as in the first instance.

FRONTIER NEWS.—The news by Tuesday's Post, says the Anglo-African of the 1st inst. from Kaffirland is still as enigmatical as previously—and stealing even somewhat more general. No one seems to know where it will end. The following is from the King William's Town Gazette of the 26th ult.:

THEFTS.—Four horses were stolen from the stables of the Rev. Mr. Waters on the night of Friday last. The Rev. gentleman had, we believe, been but a short time from his mission station, near the Kye, when this misfortune occurred. A loss of about £50 has thus been inflicted upon him. A horse of Mr. George Isher's has likewise been missing since Monday last—whether stolen or stray it has not yet been ascertained; but having been put into the stable on the evening previous, it is supposed, to have been stolen. The whole of the contractor's cattle at Fort Pato were swept off on Wednesday night last by Kaffirs.

With reference to the conduct and intentions of the Kaffirs, conjecture appears to have arrived at a state of profound mystification; experience, that has hitherto deemed it as an opinion on this subject infallible, now acknowledges itself to be thoroughly puzzled. Kaffir people are still unsettled, and cattle-killing is carried on amongst them with as much earnestness as ever, as many as one hundred hides having been purchased by one trader in a single day. We are informed that a great meeting of the chiefs has been called by Krell, and which is expected to take place within ten or twelve days. We may therefore fairly conclude that at this meeting will be decided the question of peace or war; hence we refrain from opinion until the result is known. In the meantime, we cannot too strongly impress upon farmers and all who suffer so largely in uncertain times the truth of the maxim that to be prepared for war is the best way to secure peace; the authorities here are on the alert.

We have been informed that a person travelling from the colony to this place, overtook two parties of native women, each consisting of no less than twenty-five, loaded with corn; and as another proof of the reduced state of the Kaffir commissariat, we may mention that the dogs belonging to the neighbouring kraals, hitherto remarkably troublesome to strangers, are now so poor and weak that they neither rise or bark upon the approach of visitors

Great significance may be attached to little facts of this description.

FREE STATE.—SALES OF FARMS.—Farms in the District of Bloemfontein have of late been rapidly rising in value, owing partly to the arrival of purchasers from the Cape Colony. We learn that Mr. J. Dick, general agent of this town, has during the last few days sold several farms in this district to farmers from Namaqualand and Colerberg, at very satisfactory rates. One of these farmers will, it is said, bring with him 10,000 woolled sheep. The following list of farms sold, and prices obtained, within the last few months, will, we think, be sufficient proof of what we have above stated:—

1. Slangfontein and Roodo Kop, two farms adjoining each other, and situated on the Koren Spruit, not far distant from the native boundary, were sold during the past week, in the estate of B. W. Richter, to Van Zyl from Namaqualand, for £2,800, at £, 12, and 16 months credit. One of these farms—Roodo Kop—was purchased by the late proprietor on the 19th May, 1849, for £90. The other—Slangfontein—was received by him as a grant from the British Government. 2. Torbrek and The Hope, two farms adjoining each other, situated on the Kafir River, granted by the British Government to Dr. A. J. Fraser, were sold last week, without any buildings or improvements, to one Van der Walt, from the Colerberg district, for £1,200, or £600 each. These farms were considered only a few years since, as being comparatively worthless owing to the shortness of the grass, and dry and barren nature of the soil. 3. Floradale and portions of Glenlyon and Auckmacy, three farms lying contiguous, situated on the Melder River, the property of Dr. A. J. Fraser, were sold a few months since to Mr. F. Daniel of this town, for £2,500 as follows:—Floradale for £1,500, a portion of Auckmacy for £600, and a small portion of Glenlyon for £400, the last being about equal in extent to one farm. Floradale was purchased by Doctor Fraser on 22nd January, 1850, for £12 10s. 4. Bloem Spruit, adjoining the town lands of Bloemfontein, the property of Mr. George Page of this town, sold a short time since, with scarcely any buildings, or improvements, except a small house, or rather, hut, a small fruit garden, and stone kraals, to Mr. J. Papfus of Graaff Reinet, for £800. This farm was purchased by Mr. Page in 1851, for £375.

We may also mention that an offer of £1,200 has been made for the farm Hope Vley, adjoining the town-lands of Bloemfontein, which was sold by Mr. Joseph Allison on the 14th October, 1850, also at an offer of £2,000, at a short credit, viz, six and twelve months, with interest, for Merino and Thoroughbred, two farms, the property of Mr. Alfred Buckley, situated on the Melder River. One of these farms—Merino—was purchased by Mr. Buckley on the 21st May, 1849, for £505. The other Thoroughbred—Mr. B. bought of J. S. van der Merwe on the 24th February, 1849, for £35 10s.

Two water-courses in Bloemfontein belonging to Doctor Fraser, planted with fruit trees, but without any building except a mud hut, were sold recently to Mr. Lucas Erasmus for £225.—Bloemfontein Gazette.

We learn from a gentleman recently from Smithfield, that none of the horses or cattle have yet been delivered up by Moshesh, according to promise, but that great exertions are being made in the Basuto country to get them together. We have also received a letter from Plather, dated the 2nd inst., the writer of which states, that "At present all is quiet here. Disorders are being made to collect the horses, cattle, &c., for the Free State. A little time will probably show how matters will go on."—Ibid.

We learn that horse-sickness has already broken out in this town and district, and that 6 horses have died from it on Koren Spruit, and one on the farm of Mr. Lucas Erasmus. It is feared that it will be more than usually severe this season, as it has not for many years been known to commence at so early a period.—Bloemfontein Gazette.

Winburg, 6th Dec, 1856. On the arrival of the new landlord at his residence, the inhabitants of the town waited upon him, and presented the following address, which was read by Joseph Mac Cabe, Esq.:

To Mr. J. M. Howell, Esq., Landlord, Winburg. Sir,—As faithful and peaceful burghers and inhabitants of this village, we feel it our pleasant duty to welcome you as our new magistrate, and wish you all success in this your new appointment, in support whereof if you may rely on our cordial co-operation.

As you have come amongst us an entire stranger to our interests, to take upon yourself such a weighty task, we trust, we take the liberty of calling your attention especially to the advantage of our village, trusting that all future requisites will not escape your vigilant observation, and with the hope that the village may flourish under your administration. We subscribe ourselves, Your most obedient servants, Joseph McCabe, P. P. Seinehage, J. C. Barnman, G. H. Loch, Edwin Hart, J. P. Klyn, P. J. Hammes, A. H. Elliott, W. L. Goff, J. C. Vidman, R. H. Bothmann, R. N. Osborn, J. Braford, D. G. Roux, John George Hughes.

Mr. McCabe stated further, that he was authorized to say, that the country residents of this important division, had by Mr. Howell's appointment with great satisfaction. Mr. Howell then replied as follows:—

Gentlemen,—I heartily thank you for your friendly address and very cordial reception. Believe me I will endeavour as much as possible to do my duty towards the inhabitants of this important district, not only as Landlord, but likewise as a man, always bearing in mind my oath and duty as a burgher of the Orange Free State.

I am really surprised at the change and improvement this place and district have undergone since my last visit here in 1849. This village and district require a minister and a schoolmaster, as well as different other institutions—the principal of which is an agricultural society. On obtaining the first of a id establishing the last, Winburg will advance. Fellow burghers! lend me your assistance, and then under God's blessing and our worthy President's rule, Winburg will flourish.

Your obedient servant, JAS. MICHEL HOWELL. To Messrs. A. H. Elliott, J. M. McCabe, and the other gentlemen who signed the address. At the conclusion of which the inhabitants gave three cheers, and broke up.—Bloemfontein Gazette.

J. G. STEYTLER, G son, Office, Wale-street, No. 5. Cape Town, 1 Jan., 1857. Dr. Romershausen's Eye-Essence. DR. C. F. JURITZ & Co. have received per Candace; a fresh supply of the above Essence for Preserving, Improving, and Strengthening the Sight. The value of this excellent remedy may be ascertained by the Certificates given below, besides others they have been favoured with. By the same vessel, they have likewise received fresh DRUGS, CHEMICALS, ESSENTIAL OILS, VEGETABLE EXTRACTS, &c., &c., &c. Stellenbosch, 5th August, 1856. To Dr. C. F. JURITZ & Co., Cape Town, Agents for Dr. ROMERSHAUSEN'S Eye-Essence. I SUFFERED from such a severe Disease of the Eyes that two able Doctors, whom I consulted, were of opinion that it would be necessary to have the web of the eye cut, and I was in great fear of being reduced to total blindness, when, as a last resource, I had recourse to Dr. ROMERSHAUSEN'S Eye-Essence, with the best result; hence I certify with gratitude that it has not only saved me from the certainty of losing my eye-sight, but, by a continued use of this excellent remedy, its strength has become even greater than before. I applied it faithfully for only 3 months. F. P. BOSMAN. Cape Town, 19th September, 1856. Dr. C. F. JURITZ, & Co. TWO years since my Eye-sight became very much impaired, and that without any apparent cause. I very much feared at one time that total blindness would have been the result, as I could neither read nor write without great difficulty, nor could I distinguish the features of an acquaintance at three or four paces distant. I was advised after having recourse to other treatment, to try Dr. ROMERSHAUSEN'S Eye-Essence, for which you are the Agents in this City, and am happy to say that from the time I commenced using it, I derived a sensible benefit from it; my eye-sight has gradually improved, and although perhaps not so good as it was some years since, I consider it nearly as good as any possessed by many persons of my age. I attribute this entirely to the use of this valuable lotion. You are at perfect liberty to refer to me as to the truth of this report.—I am, &c. JOS. PYBUS.
