STELLENBOSCH,
Kirsten's Logshuis in the Market.

The Stellenbosch municipal council has decided to buy the house in the Market, next to the old town hall, for use as a municipal library. The house is situated on the corner of Church and Main Streets, and is considered to be an excellent location for the new library. The council has already made arrangements for the necessary repairs and alterations to the house, and will begin work as soon as possible.
